## BANDAGES AND PLASTER BANDAGES

---

Bandages make an assortment of a very wide applications such as: bandaging, treatment, protection, sanitation of kneads and trauma injuries, immobilisation etc. In manufacturing, there are in use the natural and artificial materials, weaving, finishing and coating. They can be made into the bandaging tapes of various widths, lengths and forms. Depending of the place and the way of application, they have clips for fixing the ends, absorption pads, ribbons for fixing and the others. According to the customer's request, they can be made in many forms and adapted for various usages and Sterilization process if necessary. All products undergo the quality control and testings using the standards by: EUR.Ph., national and internal standards. Expiry Date of these products is 5 (five) years from Date of Production.
